Cool white light – White
Part No. L-3706-W

METAL

Warm white light – Nickel
Part No. L-4703-SN

Cool white light – Nickel
Part No. L-4706-SN

POWER CORDS

6 ft. power cord - no switch
Part No. L-5600-W

6 ft. power cord - with switch
Part No. L-5601-W

CONNECTORS

Butt connector
Part No. L-500-W

12" connector
Part No. L-512-W

36" connector
Part No. L-536-W

On/Off connector w/4" cord both sides
Part No. L-555-W

## LED LIGHT BARS & LED PUCK LIGHTS
(For kitchens, bathrooms, closets, cove, showcases etc.)

•Low voltage (12V DC) / Easy wiring
•Long lasting & efficient
•Slim and compact
•Available in (3) color temperatures
•Each light comes with 8ft of wire
•Puck lights and LED bars use the same power supply.

Color Temperatures:
Warm White(WW) 3200K
Natural White(NW) 4500K
Bright White(BW) 6000K

**Please specify the required color temperature with your order.**
•Actual length is always smaller to leave room for the wires.

LED LINEAR LIGHTING II

Two times (2X) the Light Output of our Cabinet Lighting.

LED Bars II are our **mid-range light bars**. They measure no more than ¾" wide and are available up to 8 ft in length. Lens options are clear or frosted. With the clear lens option you would see the LED dots but the frosted lens option gives you **dot free lighting**. The trade-off with frosted lens is that you lose 20-30% lumens.

LED BAR II with clear lens, light output 270 lumens/FT

DOT FREE LED BAR II with frosted lens, light output 190 lumens/FT

PART NO.	DESCRIPTION	TEMP. / COLORS	WATT
LEDBARII24	LED Light Bar II 24" Long 12V Dc	WW, NW, BW	6
LEDBARII36	LED Light Bar II 36" Long 12V Dc	WW, NW, BW	9
LEDBARII48	LED Light Bar II 48" Long 12V Dc	WW, NW, BW	12
LEDBARII60	LED Light Bar II 60" Long 12V Dc	WW, NW, BW	15
LEDBARII72	LED Light Bar II 72" Long 12V Dc	WW, NW, BW	18
LEDBARII98	LED Light Bar II 96" Long 12V Dc	WW, NW, BW	24

Please specify the profile (B, K, L), the lens (clear or frosted) and color temperature with your order.

All LED bars come with 8ft of wire and clips for installation. Cut to size add $20.00 to each LED bar.
All LED Bars are 12V DC and require a remote power supply.

### Four Times (4X) the Light Output of our Cabinet Lighting.

LED Bars III are our **high output lighting**. There are four different profile options. They are available up to 72" in length. Lens options are Clear or White. With the clear lens you get the most lighting output and the LED dots are visible. With the white lens option you get a dot free lighting. The trade-off with the white lens is that you lose 35% of the lumens.
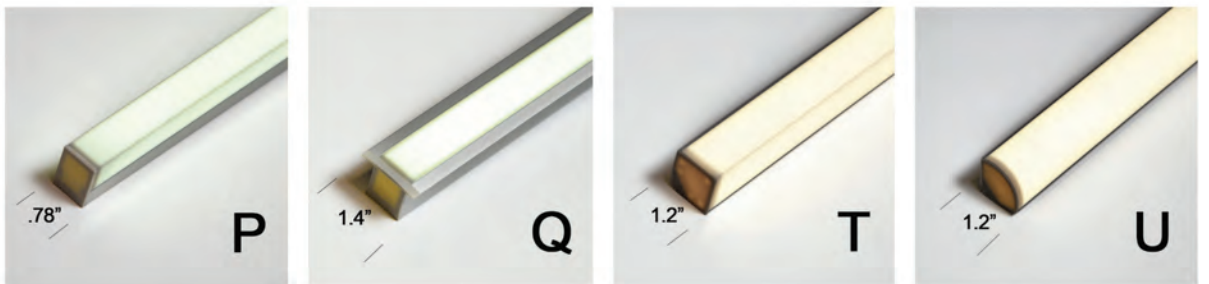

Profile "P" comes with cables to be suspended from the ceiling. Profile "Q" is for recessed applications and comes with spring fasteners. Profile "T" and "U" are fastened to walls or framing with screws. They project the light in 45 degrees angle.

LED BAR III with clear lens, light output 540 lumens/FT

**DOT FREE** LED BAR III with white lens, light output 350 lumens/FT

PART NO.	DESCRIPTION	TEMP. / COLORS	WATT
LEDBARIII24	LED Light Bar III 24" Long 12V Dc	NW, BW, RGB	12
LEDBARIII36	LED Light Bar III 36" Long 12V Dc	NW, BW, RGB	18
LEDBARIII48	LED Light Bar III 48" Long 12V Dc	NW, BW, RGB	24
LEDBARIII60	LED Light Bar III 60" Long 12V Dc	NW, BW, RGB	30
LEDBARIII72	LED Light Bar III 72" Long 12V Dc	NW, BW, RGB	36

Please specify the profile (P,Q,T,U), color temperature and lens option with your order.
RGB is only available in 3 watts/FT and requires LED Controller to operate.
All LED Bars are 12V DC and require a remote power supply. Refer to power supplies selection page.

LED STRIPS ACCESSORIES
